

Job Title: FT/PT Veterinary Assistant

Job Summary: Come be part of a team that helps provide the enrichment of pet ownership to everyone! This means customized healthcare plans for each animal, at each life stage and style. Use your experience to help practice evidence-based medicine. At Arcanum Veterinary Service we are a small rural community practice with a state-of-the-art mindset. Develop new skills in areas such as dentistry, radiology or behavior. Experience the reward of truly being an integral part of a team.

Core Responsibilities:

Generally, assume as much medical responsibility from the Registered Veterinary Technician as allowed by law to maximize operational efficiency.

- Anesthesia/Surgical preparation
- Dental assistant
- Radiology assistant
- Conduct simple laboratory tests
- Patient husbandry
- Housekeeping
- Kennel management
- Office Management

The focus of each day is different based upon the case requirements. The day may start with outpatient visits and end with an intestinal foreign body. Helping to maintain the flow of services is an integral part of this role. The Veterinary Assistant reports structurally to the Clinic Manager and operationally to the Veterinarian/Registered Veterinary Technician.

Qualifications/Skills:

- High School training in animal science or veterinary assistance preferred.
- 1 to 3 years practice experience
- Independent thinking not tied to standard operating procedures.
- Good written and oral communication skills
