MVCTC Partnership with Ferguson Construction Recognized

Dayton, Ohio – The Miami Valley Career Technology Center (MVCTC) Construction Trades programs recently attended the Miami Valley Tech Prep Distinguished Business Partner Luncheon. This annual event sponsored by the Miami Valley Tech Prep Consortium honors business partners and their work and dedication to the consortium. At this year's event, The Miami Valley Tech Prep Consortium and MVCTC recognized Ferguson Construction as a Distinguished Business Partner for their work to enhance student knowledge of the industry through post-secondary, apprenticeship, and advanced skill-training opportunities. MVCTC staff attending the event were Craig VanCulin (Masonry), Ron Kauffman (Heavy Equipment), Kelly Kramer (Carpentry), and Dale Winner (Supervisor).

Ferguson Construction provides real world experiences to students enrolled in Construction Trades programs at MVCTC through employment, apprenticeship, and job shadowing opportunities. Through student interviews on campus, representatives raise student awareness to job opportunities while highlighting the types of skills, education, and training needed to be successful. Representatives also present to students and teachers in several of our 27 partner school districts in an effort to highlight the math, science, and other academic skills used in the construction industry.

For more information about MVCTC and the Construction Trades programs, please visit www.mvctc.com or www.ctctube.com.
