MVCTC Students Visit Grunder Landscaping

Miamisburg, Ohio – The Agriculture Services students from the Miami Valley Career Technology Center (MVCTC) recently visited Grunder Landscaping to see first-hand the skills and experiences necessary to be successful in this career field. While on the site, students toured the facilities and learned about the various positions necessary to run a business in the landscaping industry. Company founder, Marty Grunder, shared with the group his experience starting the business in 1984. Mr. Grunder even provided each student with a signed copy of his book, “The 9 Super Simple Steps to Entrepreneurial Success”.

MVCTC Agriculture Services instructor, Lindsay Risch, says of the visit, “We appreciate the industry partnership we have with Grunder Landscaping Company. This trip is always a valuable asset to the program because students get a real glimpse of the positions available and the requirements in the industry.”

For more information on the Agriculture Education programs at MVCTC, please visit www.mvctc.com.
