

Thank a Veteran

So let's thank every veteran
All the women and the men

Those who helped and those who fought
Those who went to places our nation sought

The ones who fight and know the meaning
Of the way some nations are a little needing

For the peace of mind that they so want
And to stop those who go about things blunt

To all those veterans who won their race
We thank our veterans for giving us a steady pace

As we stand tall and know what is right
Think about it and thank a veteran tonight
