MVCTC Power Technology Students Excel at Contests

Clayton, Ohio – Miami Valley Career Technology Center (MVCTC) Power Technology students won the FFA District 5 Agricultural Mechanics Career Development Event held at Upper Valley Joint Vocational School. The team included Jacob Puthoff (Versailles), Josh Furrow (Miami East), and Aaron Wise (Eaton). Jacob Puthoff also placed first as an individual in the contest, and Josh Furrow placed third as an individual in the contest.

The Agricultural Mechanics Career Development Event requires teams to complete various mechanical skills, demonstrating a wide range of abilities. The competition was an elimination event with the top two district teams advancing to the state contest April 8, in Wooster at The Ohio State University Agricultural Technical Institute.

MVCTC Center of Science in Agriculture Power Technology Instructor, Larry Seibel, said of the contest, “I was delighted to see my three juniors go into another school and have the success they had. Not only did they place first, but of the three members, one placed first individual and one third in the district.”

MVCTC is very proud of our students and congratulates them on their great accomplishments. For more information about MVCTC and the exciting career programs offered to high school juniors and seniors, or the career training opportunities offered to adult students, please visit www.mvctc.com or www.ctctube.com.
