MVCTC Prepares Students for IT Jobs

Dayton, Ohio – Miami Valley Career Technology Center (MVCTC) Computer Repair and Technical Support seniors recently visited the Reed Elsevier Technology (formerly Lexis-Nexis) facility in Miamisburg. Ms. Sonia D. Villines, Human Resource Manager for Reed Elsevier Technology Services welcomed the MVCTC students and instructor, Mrs. Shirley DeWinter.

Ms. Villines shared a presentation with students on resume writing and interviewing tips. Students took a tour of the Reed Elsevier Technology Services Data Center.

Students in the MVCTC Computer Technology Academy – Computer Repair and Technical Support program learn about operating systems, troubleshooting PC problems, working with end-users, and they build their own computer. Students also prepare for the CompTIA A+ certification exam. The MVCTC Computer Technology Academy programs allow students to earn college credit and the potential to receive a Tech Prep scholarship to Sinclair Community College worth thousands of dollars. MVCTC alumni from the Computer Technology Academy have received job offers right out of high school with employers such as Teradata, Premier Health Partners, Montgomery County Auditor's Office, the U. S. Marines, and Woolpert. For more information about the MVCTC Computer Technology Academy program, please visit www.mvctc.com.
