For Immediate Release – **June 2012**

**Students Study Math and Science over the summer**

Clayton, Ohio – The Miami Valley Career Technology Center (MVCTC) held their fifth annual Science, Technology, Engineering, and Mathematics (STEM) Camp June 18-22, 2012. The camp is for students entering the sixth through eighth grade with an interest in math and science. This year over 75 students from school districts all over the Miami Valley attended STEM Camp.

STEM Camp is a one-week program that allows students to select two career areas and spend the week exploring the math and science involved in these careers. MVCTC math, science, career-technical instructors, and students work with the campers in the MVCTC labs to develop exciting hands-on projects. Camps include projects such as, Agriculture/Environmental Science, Sports Medicine, Computer Technology, Graphic Arts, Microbiology, and Green Technology.

The MVCTC STEM Camp is a success for students and staff and continues to help promote the importance of math and science skills to students in a fun and educational environment.

For more information about MVCTC and the 50 career programs and academic opportunities for high school juniors and seniors, please visit [www.mvctc.com](http://www.mvctc.com). There are still openings for high school juniors and seniors to enroll for the 2012-2013 school year. Please call 937-837-7781 for more information.
